Proposes Revoking Tylosin Phosphate as a Feed Additive

Report Categories:

Sanitary/Phytosanitary/Food Safety

Approved By:

Jess K. Paulson

Prepared By:

Tomohiro Kurai

Report Highlights:

On January 10, 2019, Japan notified the World Trade Organization (WTO) of proposed revoking the designation of Tylosin Phosphate as a feed additive via [G/SPS/N/JPN/610](#). The public comment period for the draft will close on March 11, 2019. Interested U.S. parties are encouraged to share their comments and/or concerns with USDA's enquiry point (us.spsenquiry@fas.usda.gov). For potential inclusion in the U.S. official position, please send your comments by February 25, 2019.

Keywords: JA9001 , Phytosanitary, feed additive, Tylosin Phosphate

General Information:

On January 10, 2019, Japan notified the World Trade Organization (WTO) of proposed revoking the designation of Tylosin Phosphate as a feed additive via [G/SPS/N/JPN/610](#). In the notification, the Ministry of Agriculture, Forestry and Fisheries (MAFF) explains that it will revoke the designation of tylosin phosphate as feed additives since tylosin phosphate is no longer used, produced, imported or expected to be used in the future in/into Japan.

The public comment period for the draft will close on March 11, 2019. Interested U.S. parties are encouraged to share their comments and/or concerns with USDA's enquiry point (us.spsenquiry@fas.usda.gov). For potential inclusion in the U.S. official position, please send your comments by February 25, 2019.
