Notifies an Exemption for Citric Acid Esters of Mono and Diglyceride

Report Categories:

Sanitary/Phytosanitary/Food Safety
WTO Notifications

Approved By:

Jess K. Paulson

Prepared By:

Tomohiro Kurai

Report Highlights:

On March 27, 2019, Japan notified the World Trade Organization of the addition of Citric acid esters of mono- and diglycerides of fatty acid to the exempt substances list via [G/SPS/N/JPN/629](#). Japan proposes to adopt this revision on January 22, 2019. There will be no public comment period established for this proposal as this proposal relaxes the regulation. However, interested U.S. parties are welcomed to share their comments and/or concerns with USDA's enquiry point (us.spsenquiry@fas.usda.gov).
